3M Science.
Applied to Life.™

Simplify everyday temporization.

| 3M Temporization Procedure	Benefits for Your Procedure	Benefits for Productivity	Benefits for Patients
Mix and Dispense 3M™ Pentamix™ Lite Automatic Mixing Unit	• Fewer cartridge changes • Less waste than hand mix • Homogenous and void-free matrices	• Fast extrusion maximizes work time, reduces stress	• Reduces annoying waiting times • More time for clinician to care for patient
Impress 3M™ Express™ XT VPS Impression Materials	• Smooth matrix generates the lowest smear layer • No dust	• Real putty consistency with automix delivery • More speed and improved, reproducible outcomes	• Pleasant temperature for more patient comfort • Fast-setting, thermoactive material
Fabricate Temporary 3M™ Protemp™ 4 Temporization Material	• Record-breaking toughness over time and across indications • Outstanding esthetics—brilliant gloss without polishing	• Fast and easy automix procedure • Fewer remakes due to fracture • Fewer unplanned patient visits	• Fewer failures—higher patient satisfaction • Natural gloss that's easy to clean and comfortable to wear
3M™ Sof-Lex™ Finishing and Polishing System	• Flexible discs conform to the surface of the restoration	• Efficient gross reduction and contouring	• Adjustments are fast and easy
Cement 3M™ RelyX™ Temp NE/E Temporary Cement	• Good bond strength • Easy excess removal • Easy removal of provisionals	• Fast and easy provisional cementation	• Low film thickness helps provide an optimal fit
Bottom Line:	**Greater convenience** **More control**	**A more productive, profitable practice**	**Happier, more loyal patients**

3M combines products that are simple and easy to use, creating a total temporization solution you can move through quickly and easily, from start to finish.
